02 · PHILOSOPHY

Quiet Ledger — the design philosophy

01

Space is the material

The page opens with air. Sections sit as bordered cards on a soft off-white field, with equal padding on every side and columns aligned to an invisible grid so precisely the eye never catches a seam. Whitespace is never leftover — it is measured, and repeated everywhere, like entries in a ledger that always balance.

02

Colour is information

One deep ink-blue carries every action and active state. Crimson is rationed to attention and the brand mark; a single green dot signals life. Everything else lives in a calm scale of near-whites and slate greys, so when colour appears, it means something. Two inks, one paper, no waste.

03

Quiet hierarchy

A humanist sans in a narrow band of sizes, from whispered tracked labels to one confident headline. Weight does the work size does not. Monospace appears only where the system speaks about itself — framework codes and tokens, clinical annotations in a warm document.

04

Craft is the argument

Empty states are composed scenes, not apologies: a bordered tile, a stroke-weighted icon, one honest sentence. Borders are hairlines, shadows are suggestions, radii stay small. Every element sits inside the canvas with room to breathe — hundreds of small, deliberate decisions.

The finished work should look as though it took weeks. It did — every margin was laboured over with care.

COLOUR RATIO — HOW THE PALETTE IS SPENT

Roughly half air, a third card surface — colour arrives only at the moments that matter.

Typography & spacing

Public Sans

Single humanist sans across the product. Weights 450–750. Optical range is deliberately narrow.

06 · COMPONENTS

List tables, rows & empty states

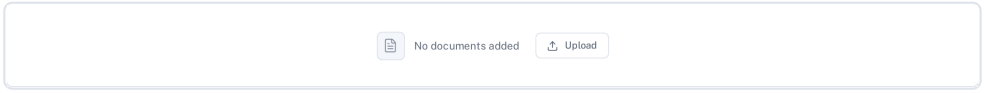

SECTION — ENGAGEMENT WORKSTREAMS

SECTION — ENGAGEMENT DOCUMENTS

DATA ROW — 58PX MIN HEIGHT

Column header
35px band, muted fill, 9px labels tracked +0.65px, subtle colour.

Row grid
1fr name · 145px type · 130px status · 30px action; 19px side padding; hairline between rows, none on last.

Row content
Primary type icon + 12px/550 name; 11px muted metadata; Draft badge; quiet ghost X action.

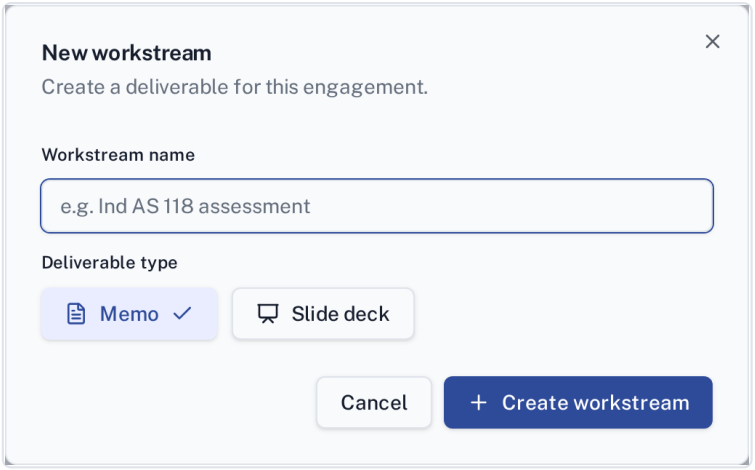

EMPTY STATE — COMPOSED, NOT APOLOGETIC

Upload pattern
Outline button in header, again inside the empty row — the action lives where the need is felt.

Empty row
Min 91px; centred 32px icon tile (muted, hairline, 6px) + one 12px sentence.

Count chips
19px rounded chip, secondary fill, primary 10px/600 numeral beside every title.

Dialogs, states & responsive

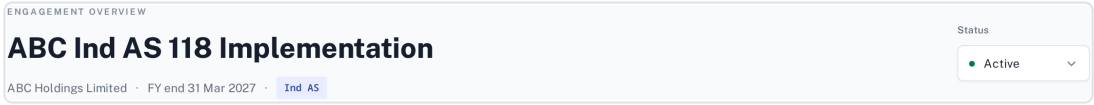

DIALOG — NEW WORKSTREAM

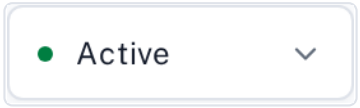

Shell
Max-w 512px, 24px padding, 8px radius, popover shadow; zoom 95%→100%; Escape closes.

Form
12px/550 labels; primary focus outline; deliverable type as toggle cards.

Actions
Right-aligned outline Cancel + primary ‘Create workstream’.

PAGE HEADING & STATUS CONTROL

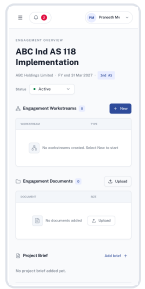

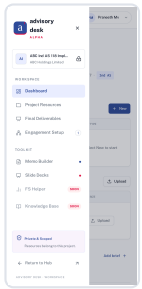

STATUS SELECT — 37PX

Status control
Label above a 37px select: success dot (green) for Active, subtle dot otherwise; native select, chevron drawn.

Brief toggle
Ghost action in primary — ‘Add brief’ becomes ‘Edit brief’; brief text and detail grid persist below.

Popovers
Notifications pill (crimson 18px count) and profile pill (29px avatar) open 7px-radius popovers, 260px / 200px wide.

RESPONSIVE — BREAKPOINTS

≤1500px
Roomier rhythm: 48px top padding, 108px empty rows, 36px section gaps.

≤1200px
Tighter topbar; private-workspace label drops; H1 26px.

≤1000px
Sidebar 220px; breadcrumbs collapse; metadata hides; detail grid 2-col.

≤760px
Sidebar becomes overlay drawer (246px, 0.2s slide) with backdrop; tables drop 3rd column; heading stacks.

Reference design

Styling is centralised in src/styles.css; interactive actions use the shared Button component. This dashboard is a mockup — list state is in-memory React.

Content routes

Single route at '/' (Engagement Dashboard). Head: title + description + og/twitter metadata per route.

Icons

Lucide React only: Network, Folder, FileText, Upload, Plus, X, Bell, ChevronRight/Down, ShieldCheck, LockKeyhole, ArrowLeft/UpRight, Menu, Check, Grid2X2, LayoutDashboard, Presentation, BookOpen, ChartNoAxesColumn.

Accessibility

aria-labels on all icon buttons; aria-labelledby sections; hidden file input labelled; status select labelled; reduced-motion honoured; focus outlines in primary blue.

Next steps

Wire workstreams, documents and the brief to Lovable Cloud tables when the mockup graduates to a working tool — the three-section layout and empty states stay as specified.
